The “Travel In Colour” collection includes seven hues inspired by Sally Hansen Global Color Ambassador, Madeline Poole. The revolutionary, no U.V. lamp-needed gel-like manicure system ensures a long wear finish and mirror shine.

The Sally Hansen Miracle Gel® “Travel In Colour” collection includes:

- **Little Peony:** Stop and smell the flowers in this barely pink, cotton candy tone
- **In The Sheer** Go bare with this sheer baby pink
- **Sweet Tea:** Pour a tall glass; this provincial-pretty pale peach is a feminine take on nude
- **Orchid-ing Aside:** This pretty pastel orchid is the essence of romance
- **Sugar Fix:** Satisfy your sweet tooth in this vibrant, sky blue
- **Lilac Insomniac:** You won't lose sleep over this taupe-tinged violet shade
- **Frill Seeker:** The perfect creamy neutral for country classic

With Sally Hansen Miracle Gel®, there are just 2 simple steps for application and easy, soak-free removal with the use of regular nail polish remover.

1. Apply two thin coats of Miracle Gel colour to clean, bare nails.
2. Apply one coat of the Miracle Gel Top Coat.

Natural light cures the polish, yielding a manicure that is more durable than traditional polish. The Miracle Gel Top Coat volumizes as it protects and provides a high-gloss finish and mirror shine. The result: the next best thing to a salon gel manicure that you can do at home. The Miracle Gel Top Coat must be used in tandem with the Miracle Gel shades to achieve the benefits of its no-light curing technology.
