NAIL INDEX

GET THESE MUST-HAVE NAIL LOOKS AT HOME WITH THE HELP OF THESE PRO TIPS FROM MELISSA FORREST (@MANIMELISSA), NAIL EXPERT FOR SALLY HANSEN CANADA.

what you'll need...

Left to Right: Salon Effects Nail Stickers in Little Black Lace, Salon Effects Nail Stickers in Kiss My Fangs, Insta-Dri Nail Color in Night Fright, Insta-Dri Nail Color in OMGhost, Big Shiny Top Coat, Big Matte Top Coat, Dotting Tool (from the I <3 Nail Art Tool Kit) I <3 Nail Art Pen in Black

Matte Attack

Paint your nail with two coats of **Insta-Dri Nail Color in Night Fright** and once dry, top with **Big Matte Top Coat**. Next, use **Insta-Dri Nail Color in Night Fright** to carefully paint a curved stroke of polish from just under the moon of your nail to your tip. Fill in the shape, and repeat on the opposite side, leaving a small strip of matte colour going down the centre of your nail.

Dare to Drip

Paint your nail with two coats of **Insta-Dri Nail Color in Night Fright** and once dry, top with **Big Matte Top Coat**. Drop a generous amount of **Insta-Dri Nail Color in Night Fright** onto the tip of your nail and use the dotting tool to drag the bead of polish in streaks two thirds of the way down your nail to create "drips"

NAIL INDEX

House of Stark

Paint your nail with two coats of **Insta-Dri Nail Color in OMGhost**. Using the **I <3 Nail Art Pen in Black**, carefully create a curved line at the tip of your nail and fill it in to create a dramatic French tip. To create a geometric V-shape, use two pieces of tape to create the V, then fill it in with **Insta-Dri Nail Colour in Night Fright**. Let the polish dry 100% before taking off the tape and sealing it with **Big Shiny Top Coat**.

So Vamp & Laced Up

Size a **Salon Effects Nail Sticker in Kiss my Fangs** or **Little Black Lace** to your nail, then peel it off and carefully place just above your cuticle. Use the dotting tool to press it securely against the base of your nail, then slowly push the rest of the sticker down, eliminating any air bubbles. Use a nail clipper and nail file to clip away any excess parts of the sticker and smooth down the edge of your nail.

Fierce Filigree & Scratch That

Paint your nail with two coats of **Insta-Dri Nail Color in OMGhost** and let dry. To get the filigree effect, use the **I <3 Nail Art Pen in Black** to draw on multiple squiggly lines and connect them together, leaving lots of negative space in-between for the best results. To get scratch marks, use the same pen to draw on 4-5 lines from the base of your nail, halfway down. Then, draw on 4-5 more lines, starting half way down your nail, in-between the first lines, ending at the very tip of your nail. Finish with **Big Shiny Top Coat**.
