## what you'll need...

Miracle Gel in Get Mod, Finest Fingernails Scissors, Complete Salon Manicure in Green Light, Complete Salon Manicure in Blue Chip, Insta-Dri Nail Color in Plummet, Insta-Dri Nail Color in Back to Black, Miracle Gel Top Coat

### Step 1

Paint each of your nails with two coats of **Miracle Gel in Get Mod** and let dry completely.

### Step 2

Use small strips of clear tape (use the Finest Fingernails nail and cuticle scissors to cut each strip the same width) to create a geometric design on each nail. Press the tape down firmly on each nail to ensure it's completely adhered.

### Step 3

Use **Complete Salon Manicure in Green Light** and **Blue Chip** and **Insta-Dri Nail Color in Plummet** and **Back to Black** to colour in each of the shapes created by the tape on your nails.

### Step 4

Once the polish has dried completely, remove the tape strips to reveal your patterned manicure. Seal the deal with **Miracle Gel Top Coat**.
