**Step 1** Choose three to four nails per hand to create nude accents. Paint these nails with two coats of **Complete Salon Manicure in Au Nature-al**. Allow to dry completely.

**Step 2** Section off the nude nails with tape or nail stickers, and paint the rest of the sections (and remaining nails) with **Complete Salon Manicure in Pat on the Black**. Allow to dry completely and remove the tape.

**Step 3** Pour small pools of various shades (try **Complete Salon Manicure in Mum's the Word, Poof! Be-gonia, In Full Blue-m, Aflorable, and What in Carnation?**) onto a piece of tin foil. Using the **Dotting Tool**, paint five small dots to create each flower. Allow to dry completely.

**Step 4** Use the **Dotting Tool** to create small dots in the middle of each flower in the colours of your choice, and add small leaves using **Complete Salon Manicure in Pardon My Garden**.

**Step 5** Finish off each nail with a glossy coat of **Big Kwik Dry Top Coat** for fast-drying results and UV-protection from fading and chipping.
